To: **ALL APPLICANTS,**

Please be advised, that anyone who does work for another is considered to be a contractor, and therefore is required to carry Liability Insurance to protect the Homeowner, Utilities Co., and the Town of Lyndon from any accidents incurred during your construction project.

Please have all of the contractors, **(i.e. Electric, Plumbing, Carpentry, Excavation, Landscaping, Block and Concrete,)** provide me with a Certificate of Insurance of at least \$400,000.00 coverage before beginning construction.

It is also required by State Law that before any digging of any kind is commenced, that the **UFPO** is notified at least 2 full working days before starting any such work, to report, call 811.

REMEMBER, IT IS YOUR RESPONSIBILITY TO NOTIFY ME OF ANY CHANGES OR INSPECTIONS THAT ARE READY TO BE DONE.

Thank you in advance for your cooperation regarding the above, and good luck with your project.

Sincerely,

Ryan Reed

Permit Application Procedure

1. Obtain a Permit Application and specifications from the Town Clerk or Town Website lyndontown.org and **fill it out completely**. Fill out only the information that pertains to the project that you are doing, and you **MUST** include your Tax Map Number with express directions to the Property.
2. Return the completed application along with 2 sets of plans or sketches and the proper fee to the Town Clerk to be forwarded to the Building Inspector. Plans must show the basic size of the structure, floor plans, a three dimensional view of the structure, a list of materials and a plot plan (view of the property and the location of all structures, septic, water, and roads).
3. The completed application must be filed at least 14 days prior to the anticipated starting date of the project.
4. The Building Inspector will review the permit application and the plans to make sure that they comply with all applicable codes and laws. If there are any violations, they will be noted and the plans returned to the applicant for correction. A permit will be approved and issued when the plans comply with all necessary code laws. (Note: if plans must be resubmitted to the inspector, it is not necessary to pay any additional permit fees.)
5. **THE PERMIT AND SET OF PLANS MUST BE ON THE PROJECT SITE AND ALL TIMES.**
6. A Certificate of Insurance, for all contractors, which will be working on the project, for at least \$400,000.00, also proof of compliance with mandatory coverage provisions of the Worker's Compensation Law, will be filed with the Building Inspector, before any work will be permitted to commence. (A contractor is defined as anyone who does work for someone else for pay, money or barter.)

Homeowners to file Form BP-1 (12/08)

Exception:

A building permit is NOT required for the performance of necessary repairs that do not involve material alteration of the structural features, and / or plumbing, electrical or HVAC systems, including for example, the replacement of siding and patching of roofing materials less than 25% of the whole roof, of the same kind and quality. Such work shall nevertheless, be done in conformance with the Uniform Building Code. Everything else will require a permit

Note: The Homeowner (or their Agent) is responsible for notifying the C.E.O/Building Inspector and getting the Inspections done.

BUILDING PERMITS ARE VALID FOR ONE YEAR.

RENEWING BUILDING PERMITS: In the event that a building permit must be renewed, a fee equal to 50% of the original building permit fee will be charged prior to re-issuance. Building Permits can be renewed three concurrent times only. At that expiration, application for a new building permit with associated fees will be instated.
